Longitudinal Surveys of Australian Youth

Longitudinal Surveys of Australian Youth is a program of surveys of young people jointly managed by ACER and the Australian Government Department of Education, Science and Training (DEST). The surveys focus on the education and labour market experiences of groups of young Australians, beginning from their middle years of secondary schooling. Data collected include basic demographic variables, as well as information about educational and labour force participation and experiences extending over a number of years.

The present form of the LSAY program commenced in 1995 with a national sample of Year 9 students. The program also brings together earlier longitudinal studies conducted by ACER under the Youth in Transition (YIT) program, and by the Commonwealth under the Australian Longitudinal Survey (ALS) and Australian Youth Survey (AYS) programs. The data collected through LSAY are deposited with the Australian Social Science Data Archive (ASSDA) for use by other researchers.

The 1998 Year 9 Cohort (Y98)

In 1998, a nationally representative sample of approximately 14,000 Year 9 students was selected to form the second cohort of the Longitudinal Surveys of Australian Youth. The sample was constructed by randomly selecting two Year 9 classes from a sample of schools designed to represent state and sector. Reading and numeracy tests were administered to students in their schools to provide information on school achievement for use in later analyses of educational and labour market participation. Students also completed a background questionnaire about their educational and vocational plans and attitudes to school.

Details on the 1998 survey are provided in LSAY Technical Report No. 19. In 1999 sample members were administered a brief mail survey sent to their home addresses. Details on the 1999 (Wave 2) survey are included in LSAY Technical Report No. 22, the 2000 (Wave 3) survey in LSAY Technical Report No. 24, the 2001 (Wave 4) survey in LSAY Technical Report No. 26, and the 2002 (Wave 5) survey in LSAY Technical Report No. 29.

The 2004 Y98 Telephone Survey

The 2004 Y98 Telephone Survey was conducted with 6742 of the students who formed the 2003 sample. The 2003 sample was 6905, however a number of students withdrew from the study or indicated that they would be overseas at the time of the interview. Of that group, 5979 useable interviews were completed successfully (89% of the active sample). There were 267 refusals or terminations of interview (4% of the active sample). The modal age of the sample in 2004 was 21 years.

This was the fifth year of telephone interviewing for this cohort. The survey instrument collects data on their educational and labour market experiences, as well as housing, family and financial issues. The survey involves around 25 minutes of telephone interview time.

Dimensions of data set:

Number of respondents: 5979

Number of variables: 462

The coding framework for Institutions is not publicly available.

Method of data collection: Telephone interview conducted by Wallis Consulting Group

ACER staff working on LSAY: David Curtis, Kylie Hillman, Phillip McKenzie, Julie McMillan, Gary Marks, Sheldon Rothman, Catherine Underwood and Julie Zubrinich.

LSAY Steering Committee: The LSAY program operates under the direction of a Steering Committee, which sets overall policy and approves the analytical program. The Committee has 10 members representing national and state authorities and researchers concerned with education, training, and employment in Australia.

LSAY Management Group: The Management Group has operational responsibility for the major decisions affecting the LSAY program. It comprises Elizabeth Tchacos, Lucio Krbavac and John Landt from DEST, and Gary Marks, Phillip McKenzie, Julie McMillan and Sheldon Rothman from ACER.

LSAY Reference Group: The Reference Group, which comprises representatives from Australian Government departments, advises ACER on priorities in the analytical program and survey development.
